1edo - The USB-C Fast Charging Guide

Quick start

1. Match the charger wattage to your hungriest device.
2. Use a USB-C PD cable rated for the wattage you need.
3. Look for PPS when fast-charging Samsung Galaxy devices.
4. GaN chargers stay smaller and cooler at the same output.

Bench notes

20W: phones at full speed. 30W: phone + tablet.
65W: laptop + phone. 100W/140W: multiple devices or workstations.

Safety

All 1edo chargers include over-charge, over-current and short-circuit protection.
Use intact cables and avoid enclosed spaces while charging.
